CADS Abstinence Programme (CAP) provides an intensive outpatient programme based on 12 Step Facilitation which can be helpful for people who:

- have a desire and a willingness to be drug and alcohol-free
- can commit to 9 hours a week of group work over 8 -12 weeks during the intensive phase of the programme
- would like to have longer-term support in the journey of recovery
- are open to the values of 12 Step Fellowships

Treatment takes place mainly in groups with regular individual counselling.

Family/whanau involvement is encouraged and a group is available for adult family members and support people.
