Auckland Opioid Treatment Service (AOTS) provides fully funded medications (methadone or buprenorphine/naloxone) and support to people dependent on opioids.

It aims to reduce the harms associated with opioid use and to improve the physical and mental health of people who use opioids.

Treatment can be ongoing or short-term depending on individual needs.

Opioid substitution treatment (OST) is well documented as the most effective treatment for opioid dependence. It offers people the time and stability they need to make positive changes and to begin their recovery.

**Open Mon - Fri 9am - 5pm at**

- CADS North (Takapuna)
- CADS West (Henderson)
- CADS South (Manukau)
- Pitman House (Pt Chevalier)

All can be accessed by phoning

**(09) 845 1818**

Or you can attend a walk-in clinic  
(no appointment necessary)  
at any of these sites  
10am-1pm Mon-Fri

For more information phone 845 1818  
Ask to speak with the AOTS nurse or  
go to [www.cads.org.nz](http://www.cads.org.nz)
